THE ATLANTA CONSTITUTION.

BY W. A. HEMPHILL & CO. | ATLANTA, GEORGIA, FRIDAY, FEBRUARY 11, 1870. | VOLUME II--NUMBER 202

EVENING EDITION.

ATLANTA, GEORGIA, FEBRUARY 10.

Editorial Correspondence.

JESSUP, GA., February 7, 1870.

Dear Constitution: The Macon and Brunswick Railroad is being administered well by its President, Mr. Hazlehurst. The completion of the enterprise is a matter of intense congratulation to all the people of this section, and must be an unspeakable benefit to them. Already happy results are flowing. I am informed that Brunswick is growing with marvellous rapidity. Numbers of new houses are going up. The influx of new citizens to that place stimulates the greatest activity in building. New enterprises are inaugurated.

The country along the track is very much like that along the Central, low, marshy, monotonous pine barren, but less cultivated. It is magnificently timbered with solid yellow pine, the most useful timber in the world. The soil is excellent for many purposes. Cotton can be raised to great advantage—Sea Island cotton in the lower, and the short staple cotton in the upper counties.

The great staple of Indian corn yields well in this sandy soil. Goobers grow finely. The value of this crop in Virginia shows that it is well worth consideration. Rice is another important staple of surpassing utility that the lower counties can produce finely. From thirty to forty bushels to the acre of pine land rice have been raised. Sweet potatoes and sugar-cane grow remuneratively also.

We may look for great things from this section when the net-work of railroads in prospect, is completed. The Macon and Brunswick is said to be making $1,000 per day, and its receipts daily increasing. It is building a wharf in Brunswick, and a freight and passenger depot. The road is unusually smooth for a new structure. The cars are handsome and comfortable, the officials courteous and efficient.

The towns on the road seem entirely new, from the looks of the houses. Little patches of new structures, dropped right down in the woods they appear to be, the ground around them little cleared. Occasionally, as here, you see a large, commodious painted hotel. This place has a good hotel, kept by a gentleman named Littlefield, who gives you a well-cooked, bountiful meal. This point (Jessup) is the juncture of the Gulf and the Macon and Brunswick Railroads, and is active enough.

The Brunswick and Albany Road will be another immense developer for for this section, and is fairly flying in its construction.

The truth is, that there never has been such a lively time in railroading as now. Our people are beginning to thoroughly awaken to the advantages of the iron track that links each section of the great markets of the world. All new enterprises should be encouraged. But still, the old ones that are built, should not be disregarded. Their interests should be fully fostered. There are points where competition is ruinous. It should not be the public desire to cut down our old railways to this. The opposition to new enterprises frequently grows out of the apprehension that other large enterprises, already built, will suffer. A proper medium should be struck. The new projects must have a fair showing, and the old investments must be nurtured. Occasionally, utterly undeveloped sections require the strong arm of the State to give them a lift to progress. But where a neighborhood is tapped, roads that simply compete with the old lines should be rather left to private enterprise, though they should be freely chartered. The philosophy of this is apparent.

NOT MUCH POLITICS ABOUT.

I find a remarkable apathy about political matters in this section. If Gen. Terry could travel down here and see the perfect quiet, or if Governor Bullock could spread his imperial corporosity over these barrens and observe the astounding dearth of Ku-Klux signs, or if Congress could compare that remarkable Proclamation of Horrors that the Executive fulminated as the preliminary to rehabilitating our murderous commonwealth, with the tranquility of this people, reconstruction would be thoroughly exploded. I forget, however, that this alleged state of disorder is simply a trumped up pretext, known to be false, used for a purpose, and persisted in, in spite of thorough refutation. Testimony to domestic order wouldn't suit the Governor.

THE FENIANS.

I see that the Fenians, in New York, have been making some demonstrations against the young English Prince Arthur. This is to be regretted. It is not in the true American heart to refuse sympathy to an oppressed people struggling for better things against the strong power of tyrannous subjection. Hence the feeling in favor of Ireland is strong. The Fenian movement touches many a responsive chord in this country.

But the brutal spirit that would put the assassin's knife to the heart of a boy, connected it is true with the royal family of England, but in no way responsible for the wrongs done to Ireland, and while on a visit, can not but revolt humanity, and must injure the cause in which it is attempted. I regret to learn that it had happened. It is a stain upon the men who tried it. It is to be hoped that the Fenian leaders did not encourage it.

☞ While the 15th Amendment was under discussion in the Kansas House of Representatives a Democratic member said that "While he belonged to the Democratic party, he belonged to the present age." To prove it, he voted for the amendment.

☞ The memorial to Congress, asking the submission of the 16th Constitutional Amendment, was tabled in the Kansas Senate on Wednesday, by the casting vote of the Lieutenant Governor.

☞ At the recent Woman Suffrage Convention in Washington, Mrs. H. B. Stanton congratulated the young girls present that the word "obey" had been taken from the Methodists. Every minister, she said, should be impeached.

☞ Colonel Norman Eddy has declined the Democratic nomination for Secretary of State in Indiana, and the State Central Committee are appealed to by the faithful to put upon the ticket a man equally capable and popular.

☞ A critic, speaking of Carlotta Patti's vocalism, says: "We hang upon every word." "This is a proof of the lady's remarkable power of execution," remarks a contemporary.

☞ When Prince Arthur visited the Treasury Department at Washington, one pert blonde engaged there exclaimed—"Why, he is a light rooster, ain't he?"

☞ Massachusetts seems to have a State Temperance Convention about once in three weeks—possibly oftener. The next is to be held in Boston on Wednesday, 16th inst.

Views of a Green Line Excursionist.

One of the Green Line Excursionists, in writing a description of the trip to the Nashville Union and American, gives the following pen photographs:

MACON.

Macon is a beautiful city of 8,000 or 10,000 inhabitants, and is located in the midst of a nice cotton-growing region. It consequently enjoys a very lucrative trade. Macon is a considerable railroad centre, and the Ocmulgee river is navigable to this point. There is considerable rivalry between this place and Atlanta, though the latter appears to have the advantage in the spirit of improvement. There are many very fine, even palatial residences here, an indication of the wealth and refinement of the citizens. Macon must be a most desirable city in which to reside.

A FINE CAR.

The car was built at the car shops of the State Road in Atlanta, and was a very handsome piece of work. The whole car, with perhaps the exception of the glass, was the work of the car shops. The wood was the native walnut and oak, so ingeniously put together as to make a most beautiful piece of joiner's work. The office, sitting and sleeping apartments were arranged most conveniently, and finished and turnished in elegant style. It was the pride of the Auditor of the road, Judge Hotchkiss, and well it may have been, for it reflected great credit upon the skilled workmen employed by his road. It is very clear that the car shops of the Western and Atlantic Railroad can turn out cars equal in elegance of finish and durability to any establishment in the country. This fine specimen of car architecture was generously placed by Judge Hotchkiss at the disposal of the ladies of the excursion party.

ATLANTA.

Atlanta presents on every hand evidences of vigorous growth. It has sprung up with wonderful rapidity since the war, when it was nearly destroyed by the torch of the vandal Sherman. Being the capital of the State, and a great railroad center, Atlanta is destined to attract considerable attention, and to become a great depot for the distribution of supplies of provisions and breadstuffs to a large extent of territory. We found here quite a number of Tennesseans, who have built up a large and profitable trade in the produce and commission business. They are all clever gentlemen, and deserve the success with which they have been rewarded.

N. P. HOTCHKISS.

Judge N. P. Hotchkiss, the Auditor of the Western and Atlantic Railroad, represented that road, and he was indefatigable in the services rendered the excursionists, while Blodgett was in Atlanta scheming and electioneering for a United States Senatorship, and it would have been a matter of simple justice had he been honored with the cane intended for Blodgett.

B. W. WRENN.

A cane was also presented to Mr. B. W. Wrenn, General Passenger and Ticket Agent of the Western and Atlantic Railroad. This was a handsome recognition of the indefatigable efforts of one of the most obliging, clever gentlemen connected with the excursion, to make the trip as pleasant and agreeable as possible.

☞ See Fourth Page.

Railroad Meeting.

A portion of the citizens of Newton, assembled in the court house in Covington, on the 1st of February, and the meeting was organized by appointing Hon. W. S. Montgomery, Chairman, and Lemuel B. Anderson, Secretary.

The object of the meeting was explained in appropriate language by Col. W. W. Clark, which was to give some expression of feeling, and for the purpose of giving encouragement to the construction of a railroad from Macon to Covington, and to take such other steps important and necessary to the success of the project, the speaker gave an interesting and minute account of the various contemplated roads proposed to traverse the section bounded by the Central and Georgia railroads, and urged the citizens of Newton to an earnest and active support of the route connecting Macon and Covington.

Major Zachry moved the appointment of a Committee of Five to report matter for the consideration of the meeting; and the Chairman appointed as that committee, Col. W. W. Clark, Major Lewis Zachry, Manson Glass, Silas H. Starr add Boykin R. Smith.

The Committee through their Chairman reported the following:

Whereas, The people of this country notice that the project of connecting Macon and Covington by rail is again agitated and knowing the importance and advantages of the enterprise in personal convenience, and the consequent appreciation of property of this section:

Be it, therefore,

Resolved, That we are gratified at the prospect of this road, and will give all the assistance in our power to insure the rapid and early completion of this enterprise.

Resolved 2, That Col. W. W. Clark and Hon. W. S. Montgomery be appointed as a committee to confer with others favorable to the project, and to take such steps as they may deem to the interest of this section and looking to the success of this road.

The report of the committee was received and unanimously adopted, and after remarks by Judge Glass, urging enthusiasm in the matter, and requesting the publication of these proceedings in the Examiner and Enterprise, of Covington, THE ATLANTA CONSTITUTION, and the Telegraph and Messenger, of Macon. The meeting then adjourned.

W. S. MONTGOMERY, Chairman.
LEMUEL B. ANDERSON, Secretary.

☞ Reading matter on every page.

Georgia News.

The Milledgeville Recorder records the death of John W. L. Daniel, aged 74.

The Macon Telegraph announces the presence of a stuffed whale in the city.

The Savannah Republican states that August Tritschler was drowned in St. John's river, Fla., on the 2d.

The Savannah Advertiser announces the death of Joseph Fernandez, aged ninety-one.

The Rome Daily chronicles a smash up of eleven freight cars, near Patons, on the Selma and Rome Railroad, on Monday last. No lives lost.

The Columbus Sun says the first anniversary of the Good Templars was a decided success. Col. L. J. Wright delivered the address.

The Savannah News says that the cylinder head of the engine at Wilcox & Gibb's Guano Factory, blew out, severely, though not dangerously, wounding the engineer.

The Augusta Chronicle says that the Board of Directors of the Georgia Railroad have decided to postpone action on the proposal of the Port Royal Railroad until next May.

The Rome Courier states, as a solemn fact, that a handsome leg is rarity—almost an impossibility—among African women. The reason of this is the place where they wear their garters.

The Southerner states that the Rome Railroad shipped, in January, 5,768 bales of cotton; 4,871 bushels of corn; 103,600 pounds of flour; 130,021 pounds of car wheels; 97,921 pounds of manufactured iron, and 2,141 pounds of rags.

The Augusta Constitutionalist says that Richmond Superior Court has been adjourned until the first Monday in March. Marcellus P. Foster, James P. Verdery, Charlton Hilyer, and William E. Davidson were admitted to the bar.

The Newnan Defender states that meningitis has made its appearance in Newnan. Several deaths have occurred from this sease during the last few days. The victims have been negroes. Up to this period we have heard of no white persons being attacked. Death has generally ensued in a few hours. No case of recovery has been reported.

The Cartersville Express states that workmen are engaged in framing a bridge, near the depot, to be thrown across Etowah river, on the Cartersville and Van Wert Railroad. Track laying was commenced on this road, Saturday last. Seven negroes have been quarantined in the mountains below here, with small pox, the result of the one case reported, last week, near Stilesboro. Seven criminals are now in jail, in this place, awaiting their trials at the approaching spring session of Bartow Superior Court. The Cartersville brass band has a call to visit Augusta, Ga., to attend the fireman's anniversary.

The Monroe Advertiser is informed that a Mr. Dunbar, of New York, has bought four hundred acres of land in Monroe county, adjoining Judge Bankston, with the intention of engaging in cotton planting. A number of farmers—twenty in all—in and around Forsyth have agreed among themselves to offer a premium worth $100 for the largest crop of cotton made by any one of them on one acre. The negroes in this section appear to be dying very rapidly. They do not receive the attention that was bestowed upon them by their masters "before freedom came out," and the consequence is, they do not often survive any serious illness. Small-pox has made its appearance in the neighboring county of Upson. The Ordinary promptly established a hospital and quarantine regulations, thus preventing the spread of the disease. George Clower, the law-maker returned from Atlanta the other day in state, wearing two bran new Saratoga trunks and a pair of elegant kid gloves. George is a statesman by trade.

NEWNAN, GA., February 9, 1870.

Editor Constitution: How your correspondent, "Richmond," in yesterday's issue of your paper, could make such a glaring misstatement about the condition of the Soldiers' Cemetery here, is a matter of surprise, not to say offense, to the Newnanites. They can not think he did it intentionally. Yet, justice to them, demands its correction.

He says the Cemetery has no enclosure around it at all.

It has an enclosure around it Mr. Editor, and a very neat and substantial one, too, as he could not have failed to see when he visited it, but which he seems to have forgotten when he wrote his otherwise interesting letter.

He says the mounds are allowed to wash down, and are now level with the ground, etc.

The grave-yard is situated on a hill-side, and the graves are in parallel rows running along the side of the hill. The City Council thought best to form the ground into terraces to prevent washing, leveled the mounds, each row of graves forming a terrace.

Some of the head-boards, as he says, have fallen down from decay, but they can and will be readily replaced.

Yours, NEWNANITE.

OUR AUGUSTA LETTER.

AUGUSTA, GA., Feb. 9, 1870.

A New Arithmetic by a Georgian—Education in England—Statistics from South Carolina.

Dear Constitution: A new text-book will be issued from the press of J. B. Lippincott & Co., Philadelphia, the current month. It is an "Analytical Arithmetic," by Prof. Shelton P. Sanford, A. M., who presides over the Department of Mathematics at Mercer University. The advance sheets give an earnest of what the book will be. Numbers of arithmeticians have undertaken the preparation of text-books, on their favorite theme, following the analytic mode, but all have fallen short. Prof. Sanford begins and concludes his work on strictly analytical principles. This new candidate will stand the test of the critical examination to which it must inevitably be subjected.

The Southern History of the United States, lately issued by a Baltimore house, is attracting considerable attention. Southern schools are sadly in need of a strictly non-partisan history. History ought to be the embodiment of truth. But how warped by prejudice are many statements concerning the events of the past ten years!

I have heard of still another first-class history, adapted to schools and colleges, about to issue from the press of Messrs. Richardson & Co.

SOUTH CAROLINA SCHOOLS.

The annual report of the State Superintendent of Public Instruction in South Carolina, will soon be issued. Returns from twenty-six counties show a total enrollment of 158,819 children between the ages of five and eighteen years; 63,108 of the whole number are white; 381 schools and 478 teachers are native, save seventy-three.

CHARLESTON SCHOOLS.

Whole number of whites, 4,407, blacks, 4,853. Males, 4,371, females, 4,889. The schools are separate. At the close of the war, the Board of Commissioners determined to organize a school for the special accommodation of the colored children. Southern teachers were employed. 800 pupils were soon enrolled. A great deal of good has been done. The battle over text-books is still in progress in the Legislature.

A short time since I referred to the interest excited in popular education in Merry England. The ball is in motion. Englishmen go about the work in good earnest. They are bound to succeed. Two leagues, having for their object the promotion of education, have been organized. By speeches, newspaper articles, pamphlets, etc., etc., each organization is seeking to instill their peculiar views in the minds of the populace. The Birmingham Club advocate a national system of instruction, which will guarantee to each and every child a business education, free from sectarian clogs. The Church of England controls three-fourths of the schools at present. Sectarian schools must give place to the superior organization. Manchesterites desire what is practically the present regime. Secularists, Methodists and Rationalists, are enlisted under the banner of the Birmingham League. The Mother country is waking up to the importance of a radical change in her school management—the defects of which become more and more apparent when compared with the American and other enlightened systems. Keep the religious tone, but let Sabbath-schools do the special religious work.

HISTORICAL SOCIETIES.

The Southern Historical Society, organized at New Orleans, has taken root in Alabama and other States, but I hear nothing of an auxiliary association in Georgia. We ought to have one. What does the editor of THE CONSTITUTION think of the idea?

Apropos of this subject, I record an incident which occurred at a recent meeting of the Rhode Island Society. A paper was read showing that, during the Revolution, Judge Byfield, afterwards distinguished for his conduct in the field, petitioned the State Assembly to be excused from military duty, on the ground that the Bible taught that a newly-married man should not be made to perform such service within a year. The petition failed, just as I know numbers of furloughs were returned from Gens. Bragg, Hardee and Johnson's Headquarters disapproved, when the self-same grounds were taken.

MIGNONNE.

☞ In reply to the objections of the counsel for the defense, a Virginia justice said he didn't care about "consecutions," and would try de case anyhow, and if dey didn't have satisfaction, "dey could repeal agin' his excision."

City and Suburban Affairs.

JUDGE NATHAN L. HUTCHINS.—Last night, Judge Nathan L. Hutchins was visited with a severe attack of pleurisy, while at Social Circle. Dr. J. P. Logan, of this city, was telegraphed for, and went down last night. We are pleased to learn that Judge H. was much better this morning, when Dr. Logan left.

Meeting of the Executive Committee.

The Executive Committee of the State Agricultural Society met at the City Hall this morning, about twenty members present. Messrs. C. W. Howard, W. Schley, and Gen. A. H. Colquitt were appointed a committee to confer with the municipal authorities of the city of Atlanta with reference to the Fair Ground.

Messrs. H. D. Capers, Geo. S. Obear, E. E. Rawson, and E. Steadman, were appointed to audit outstanding claims against the Society. The Committee on Claims will meet to-night at the United States Hotel.

The Committee were in session when we left, exhibiting an earnest desire to investigate the condition of affairs relative to the late Fair. In the morning we hope to be able to give the result of their deliberations.

Supreme Court—Morning Session.

Reported Expressly for The Constitution.]

ATLANTA, Feb. 10, 1870.

Argument was resumed and concluded in No. 12, Flint Circuit.

No. 12 was argued. It is H. Camp, trustee, vs. D. N. Baker. *Scire facias*, from Newton.

A. B. Simms, for plaintiff in error.
W. W. Clark, for defendant.

No. 14 is Isham Weaver vs. David Ogletree, et. al. Assumpsit from Newton.

Clark and Pace, for plaintiff in error.
A. B. Simms, Jno. J. Floyd, for defendants.

Pending argument for defendants in error. Court adjourned till 3 o'clock, P. M.

BY TELEGRAPH

Special Telegraphic Cor. of The Constitution.]

Important from Washington—Gen. Terry in Washington—Grant will not Interfere With the Georgia Senatorial Question.

WASHINGTON, February 10.—General Terry arrived last evening, and was closeted with Gov. Bullock until a late hour. Terry had an interview with the President today. The President will not interfere with the Georgia Senatorial question, and Gen. Sherman coincides with the President. Terry will not be likely to give Bullock much aid.

ARGUS.

ASSOCIATED PRESS DISPATCHES.

WASHINGTON, Feb. 10.—A heavy gale is blowing.

Wilson of Massachusetts, and several other New Englanders and three Southern Senators will vote for Bradley. His confirmation being more probable.

There is no doubt at present of Strong's confirmation.

The House is discussing the Fenian prisoner question.

The Ways and Means Committee heard the whisky delegation in favor of extending the time for bond, representing that the thirteen millions of gallons, now in bond, will not be ready for market under three years, and that the present payment of tax would involve many holders in ruin. The arguments seemed to impress the Committee favorably.

In the Senate, many petitions for the removal of disabilities.

A bill was introduced withholding grants from agricultural colleges which make distinctions on account of color.

Telegraphic Markets.

NEW YORK, February 10.—Stocks firm. Money easy at 5a6. Exchange—long 9; short 9⅝. Gold 1 20⅝. 1862 coupons 15¼. Tennessee sixes, ex-coupons 56¾; new 49⅞. Virginia sixes, ex-coupons 62⅛; new 67. LONDON, Noon, February 10.—Consols 92⅛. Bonds 87¼. Tallow firm at 46s. 3d. turpentine 39s. 6d.a31s.

LIVERPOOL, February 10, noon.—Cotton opened steady and unchanged; uplands 11⅛; Orleans 11⅜a11¾; sales 10,000 bales.

Afternoon.—Red western wheat 7s. 4d. Corn 26s. 6d. Pork 97s. Lard 70s.

PARIS, February 10.—Bourse opened dull; Rentes 73f. 30c.

HAVRE, February 10.—Cotton opened quiet; on the spot 138f.; afloat 136½f.

WHAT DOES REASON SAY?—The little mongoose when bitten by a deadly serpent resorts to a certain plant, eats of it, and escapes the effect of the poison. That is instinct. Human beings on the other hand, must depend on reason and experience in selecting the means of protecting health and life against unwholesome influences. Now, what does reason say on this vital subject? Does it not tell us that to invigorate and purify the system is the best way to protect it against the invisible poison which generates disease? Surely it does. The next question is, what guide shall we follow in choosing a medicinal safeguard? Reason replies, let your monitor be experience. Well, the experience of eighteen years, comprised in one unbroken series of satisfactory testimonials, assures us that Hostetter's Stomach Bitters possess strengthening, regulating and antiseptic properties which are not combined in the same happy proportions in any other preparation extant. This therefore, is the antidote to which reason bids us resort when our health is imperilled either by the malaria which produces epidemic disorders, or by any other cause, whether inherent and constitutional or connected with our habits, occupations and pursuits.

The venom of a noxious reptile is scarcely more subtle and dangerous than that which lurks in foul air and impure water. To escape the fevers, bilious disorders, disturbances of the bowels, and other serious maladies produced by these insalubrious elements, it is absolutely necessary that the stomach and all the secretive organs should be, so to speak, in a robust condition. Upon the amount of resistance which the vital system can oppose to the deleterious influences that assail it, the safety of the health depends, and it is because the great vegetable invigorant imparts energy and regularity to the most important functions of the body, that it can be recommended and guaranteed as an invaluable preventive medicine.

feb8-deodl w&w1t

EARLY MORN.—Thousands of both sexes, in this country, awake every morning languid, unrefreshed, and devoid of all inclination for breakfast. No matter from what cause these indescribable feelings may proceed, their best and quickest remedy will be found in a dose of Plantation Bitters. The beneficial effect is immediate. The stomach at once responds to the genial influence of the preparation, and a reserve of latent vitality, which only required the awakening agency of the potent invigorant to render it active, is brought into play. Of all appetizers it is the most infallible, and the impulse which it imparts to the digestive functions soon puts dyspepsia to flight.

From Sea Moss Farine may be made Blanc Mange, Light-house Pudding, Long Branch Pudding, Farine Cream, Cream Cakes, Farine Pies and Custards, Ice Cream, Soups, Gravies, Gruels, etc., etc.

HENRY'S
CARBOLIC
CONSTITUTION RENOVATOR,
—OR—
BLOOD CLEANSER!

This medicine is known to the faculty as being the concentrated fluid extract of Sarsaparilla united with

CARBOLIC ACID

For the Cure of
SCROFULA and CONSUMPTION.

This remedy is compounded expressly for purifying and cleansing the blood of all impurities, going at once to the fountain head of disease. It extinguishes

Tumors, Consumption, Syphilis, Skin Eruptions, Salt Rheum, Boils, Rheumatism, Waste of Vitality, Scrofula.

We all know that the promiscuous vaccination indulged in during the late war, bred the most villainous diseases. Vaccination pus was taken from the arms of many full of scrofulous sores. Then of course the impurities of the Scrofulous patient were absorbed in the blood of men otherwise without diseases, and both became infected alike. Men, women and children throughout all the west are most woefully diseased from this cause, and knew not until a few months ago, the origin of it.

HENRY'S CONSTITUTION RENOVATOR

Relieves the entire system of Pains and Aches, enlivens the spirits, and sends new blood bounding through every vein. It imparts a

Sparkling Brightness to the Eye.
A Rosy Glow to the Cheek.
A Ruby Tinge to the Lips.
A Clearness to the Head.
Brightness to the Complexion.
Buoyancy to the Spirits.
And Happiness on all Sides.

For all affections of the kidneys is unsurpassed. People have been rescued, as it were, from the very jaws of death, by a timely use of this great remedy.

EXTRACTS FROM VARIOUS LETTERS.

"I was vaccinated in hospital. Before that I had no skin disease. Until I had a bottle of your Constitution Renovator sent me by Mr. Roper, of Columbia, Mo., I suffered tortures with running sores. Since I used two bottles, I am all well except a small sore on the calf of my leg, and that is getting well fast."

"This is from a lady:" "And now my skin is as clear and fair as a baby's. My complexion, thanks to your Renovator, is beautiful."

"Yes, yes, I may say such relief was unknown to me before. Enclosed find five dollars for six bottles; two families here want to try it."

"I was very much troubled with syphilis. Your remedy seems to be curing me fast. Send four bottles per express."

"No more rheumatism. Three bottles of Constitution Renovator [illegible]."

"Doctor, enclosed find $5. Please send me a supply. Two families here want to try your Constitution Renovator."

We have not space for more of the above extracts, but you can ask your neighbor about the remedy. Every one has experienced some of its benefits. [illegible]

Kidneys Retention of the Urine etc. and for female Diseases Nervous Prostration, Weakness, General Lassitude and Want of Appetite, it is Unsurpassed.

CAUTION.—In ordering our remedy, always place the amount of dollars in registered letters. The new law in our New York Post-office compels this. Address,

DR. M. E. HENRY & CO.,
Director General Berlin Hospital, Prussia. Agents of the United States; Laboratory, [illegible] Pearl St. Post-office Box [illegible], New York.

[illegible] Constitution Renovator is $1 per bottle, six bottles for $5. [illegible]

Sold by all respectable druggists. feb2-dly

THE DAILY CONSTITUTION.
OFFICIAL JOURNAL OF THE CITY.
THE LARGEST CITY, COUNTY AND STATE CIRCULATION.
DEFIES REFUTATION.
BY W. A. HEMPHILL & CO.
I. W. AVERY, Editor.
MORNING EDITION.
ATLANTA, GEORGIA, FEBRUARY 11.

FREEDOM OF SPEECH.—Ryland Randolph, Editor of the Tuscaloosa Monitor, has been expelled from the Alabama Legislature, on account of newspaper strictures. The vote stood 57 yeas to 17 nays, and was taken while he was absent.

PORK PACKING AT THE WEST.—Up to the 29th of January, the total number of hogs packed at St. Louis, Chicago, Cincinnati Louisville, and Milwaukee, was 1,436,548. against 1,448,401 for the same period last year, or only 11,853 head behind.

CAPT. JAMES R. SLAYTON.—Capt. Slayton, one of the most efficient contractors on the Alabama and Chattanooga Railroad, the Chattanooga Times says, has obtained a large contract on the Cartersville and Van Wert Railroad. The Captain is after putting that slate on the market abounding in such inexhaustible quantities at Van Wert.

FREIGHT BLOCKADE.—The freight blockade at Chattanooga has about subsided. The truth of the matter is, that there ought to be a double track from Atlanta to Chattanooga to supply the shipping demands of the country. Freight could be moved with more dispatch and ease, and with less liability to accident.

FEMALE SUFFRAGE IN ILLINOIS.—Mrs. Amelia Hobbs has been elected Justice of the Peace for Jersey Landing Township, Jersey county, Illinois, by a majority of 26. This is the first woman ever elected to office in Illinois.

Is she not a man and a sister, and therefore entitled to hold the office.

The Alabama and Georgia Railroad.

The proposed road which is to extend from Decatur, Ala., on an air line east to the Memphis branch of the Georgia Road, at the line between the States of Georgia and Alabama, some sixteen miles west of the city of Rome, which is situate at the head of the Coosa river, and contains a population of some eight to ten thousand inhabitants, is a very important one.

An experimental survey has been made on this road. It crosses the Lookout and Sand Mountains, the distance as per actual instrumental measurement is from Decatur, Ala., to Kingston, Ga., via Chattanooga 213 miles; from Decatur, Alabama, to Kingston, Georgia, via Rome 145 miles, a saving in distance by the latter route of 68 miles between Decatur and Kingston, and the engineer gives it as his opinion that when he comes to locate, he can make the road some ten miles shorter, and at less expense.

A correspondent of the Montgomery Advertiser says that this road, in crossing the mountains, encounters no grade exceeding 66 feet in the mile, will have no curve of a less radius than 1,433 feet. On the mountain, the surface is comparatively level, and the grading will be light. The road from Rome to Decatur crosses but one stream of any size, and that is the Oostanaulla, immediately at the city of Rome. The Chattooga and Little rivers are the only streams on the line of road but can be crossed by the ordinary trestle, and these two streams will not require a bridge exceeding 150 or 200 feet in length. Their proximity to building material is such as to greatly lessen the expense.

The road passes over the fertile valley of the Coosa, and of the Chattooga parallel with the Coosa, some thirty-five miles. Leaving the Coosa in an air-line direction, it ascends the Lookout mountains, crossing the Alabama and Chattanooga road at Collins', in Wills Valley. Thence, by way of a gorge through the ridges which is itself almost a grade, the foot of the Sand Mountain is reached, the table lands of which are well adapted to the growth of oats, corn, esculents, grapes, fruit trees, grass, etc., finely watered and healthy—abounding in game and rich in minerals, sustaining and supporting a hardy, industrious and clever population, who knowing how, delight to labor, for an honest livelihood, and are pleased to share their hospitality with those who seek locations among them.

The minerals alum, iron coal, sand stone, lime, and the immense quantities of the finest building material lying all along the line of this road will create a business which will be remunerative in itself, independent of that immense travel which will prefer this road to those going by Chattanooga, as well on account of the saving of time and distance, as of the exemption from the frightful sensation produced by crossing those high and dangerous looking bridges over the Tennessee River. The friends of this road ask no exclusive advantage—they only seek to be allowed to share in the benefits of the general State aid law. The cost of building this road, with the exception of equipment, is estimated at $2,200,000.

Hon. James Brooks.

No one possessed of any knowledge of intellectual get-up among leading men, can look upon Mr. Brooks and not recognize his claim to distinction. His sallow, strongly marked face has a fine, clear-cut look, that is enhanced by a pair of glasses that sit like a battery on his prominent nose. It is in the lower part of the face that one gets the best idea of his character. The chin rounds out, forming an admirable base to his firm-set mouth, and one can read there the qualities that carried him unflinchingly through the stormy debates that were set to the music of artillery, shaking the walls of the Capitol.

Mr. Brooks is ready in debate, but carries with him rather the force of character than the weight of argument. He can not be intimidated nor embarrassed. At any hour, while the Cave is being agitated by political discussion, he may be seen rising, in a sort of dark majesty, from his seat to utter the most atrocious doctrines of the Democratic faith, and although crowds do not gather about him, as around Cox or Voorhees, Bingham or Butler, the leaders of our party note every word he utters, and hasten to reply.

It is curious to see the gentle, fatherly tenderness with which he regards the beautiful young form at his side, and realize that the bitter leader of the bitterest faction our country ever experienced has an inner, sweet domestic life apparent here. [*Don Piatt.*

TO STOP POTATOES ROTTING.—An experienced agriculturist informs us that about four years ago he applied lime to potatoes that had commenced to rot, and that it immediately arrested the decay. Since then he has made it a common practice to apply common slacked lime to his potatoes as he takes them up. He puts a thin layer of lime upon the floor where the potatoes are to be laid, and puts some of it over them, about every ten inches, as they are put down. He considers this as perfectly protecting them from rotting, as he has never had a rotten potato since he has practiced it, and he believes, also, that potatoes thus used are rendered better by the action of the lime. We advise farmers to try this plan, if they have any kind of potato that is liable to decay in the heap, as it can generally easily be had by them.

☞ Lord Wilton, in his "British Sports and Pastimes," quoted this advertisement, which actually appeared in a Paris paper:

"Wanted, a Nurse.—The Signora Marchesa Siffanel di Bartolomei is in want of a young, healthy wet nurse. Her services will be required for a small litter of English spaniels, thoroughbred, the maternal parent having died while giving them birth. Nurse to reside in the house. Wages, 100 francs per month. Chocolate in the morning; breakfast with the Marchesa; dine with the servants, and sleep with the dogs."

BY TELEGRAPH.

Special Telegraphic Cor. of The Constitution.]

The Grand Battle to Come Off To-Morrow—General Terry and the President have an Interview on Political Matters.

WASHINGTON, February 10, 1870.

The Anti-Bullock Republican Delegation are having printed, by direction of the Senate Judiciary Committee, their statements and charges of alleged fraud on the part of Bullock, for presentation to the Committee on Saturday. Bullock instructed to file his answer on the same day.

General Terry had an interview with the President to-day on purely *political matters. Politics* not discussed. ARGUS.

ASSOCIATED PRESS DISPATCHES.

WASHINGTON, Feb. 10.—Butler's bill, in addition to the conditions heretofore published, provides that the removal of disabilities shall not effect property lost, captured or destroyed by the army of the United States. There is, also, an amendment excluding army and navy officers from the benefits of the bill.

Terry and Sheridan were both at the White House to-day.

The Supreme Court considered the cotton appeals. The point argued to-day, was whether the Government was responsible for the value of property when seized, or only for the amount realized and in the Treasury.

Revenue to-day $277,000.

Customs for the week ending on the 5th, a trifle over $3,000,000.

Roots, of Arkansas, in the House, introduced a bill to encourage the establishment of a line of steamers to European ports, and to ports of India, China, and Japan, and to promote emigration to the Southern States. Referred to the Special Committee on the cause of the decline of American commerce and ship building.

The Secretary of State was interrogated why the Spanish Government paid certain claims in legal tender instead of gold, as stipulated by the treaty of 1834.

Appropriations resumed and discussed to adjournment.

In the Senate the appropriation bill to supply the deficiencies in the Navy Bureaux was amended so as to read three millions, and passed. It goes to the House for concurrence.

The admission of Mississippi was considered.

The debate was mainly devoted to personalities.

The question before the Senate is on the admission pure and simple.

The Senate adjourned without action.

The President is quoted as saying that the report of the interview between himself and Radical Georgians, is inexact in some respects.

The President considers the question of admitting Senators belongs to Congress.

Lieutenant Garretson relieves Captain Schirache, as Bureau Functionary at Charleston.

HARRISBURG, Feb. 10.—Gov. Geary has vetoed the Metropolitan Police bill.

NEW YORK, Feb. 10.—The Alaska has arrived, with thirty-eight thousand in treasure.

Nicaragua advices report the coffee crop an entire failure.

MONTGOMERY, Feb. 10.—The General Railroad law, extending time in which roads can get State endorsement of $16,000 per mile, was discussed in the Senate until adjournment.

In the House a resolution to adjourn on the 25th, was adopted.

There is much anxiety felt as to whether the present Senate will draw so as to allow one-half of the Senators to be elected this fall.

A special session of the United States District Court will be convened here on the 14th inst., Judge Busteed presiding. As there seems to be a probability that the impeachment of Judge Busteed is about disposed of, there is much satisfaction felt here that the regular session of the Court will now be held without interruption.

RICHMOND, February 10.—In the Legislature, the House Judiciary Committee reported adversely on a resolution referred to it at the brief session in October, proposing the ratification of the 14th and 15th Amendments.

Jas. McDonald was elected Secretary of State and Wm. F. Taylor 1st Auditor.

An excursion party of twenty gentlemen, including the following members of Congress, arrived here this afternoon: Wians, of Ohio; Fisher, of New York; Woodward, of Pennsylvania; Spink, of Dacotah; and Booker, of Virginia. They come from Washington.

NEW ORLEANS, Feb. 10.—Two cotton pickers were burned. Loss $100,000. Chas. Merrifield perished in the flames.

Two policemen were dangerously shot by a negro. One policeman then shot and seriously wounded the negro.

Private dispatches report the destruction of the buisness portion of the town of Port Gibson, Miss., including the postoffice and hotel.

PARIS, Feb. 10.—Bullion decreased one million francs during the week.

The city is quiet.

Flourens is reported to have fled.

The Belgium ball at Tuilleries last night, was postponed on account of the disorders.

The vigilance of the Government is unabated.

LONDON, February 10.—The English government has declined to promise any reduction in tobacco duties.

Telegraphic Markets.

NEW YORK, February 10.—Cotton closed heavy; sales 1,600 bales. Flour quiet, firm. Wheat scarcely so firm. Corn dull at 88a90. Pork firmer at 26 00a26 25. Lard firmer, closing quiet; kettle 16⅛a17. Whisky dull. Rice dull; Carolina 6⅞a7¼. Sugar active. Coffee firm. Molasses in fair request. Naval stores and freights quiet.

Money unusually easy. Exchange weaker at 9. Gold heavy at 1 20⅝a1 20⅞. Governments dull. Southerns generally firm.

BALTIMORE, February 10.—Cotton dull, nominal at 24¾. Flour fairly active and prices weak, favoring buyers. Wheat firm; Pennsylvania 1 22. Corn dull; white 95a98; yellow 93. Oats at 53a57. Rye dull at 95a1 00. Pork quiet at 27 50. Bacon quiet; shoulders 13. Lard dull at 16¾a17¼. Whisky 98.

Virginias, old 51¼. Sixty-sevens 54 bid. North Carolinas, new, 24.

CINCINNATI, February 10.—Provisions firm. Pork held at 26 75a27 00. Bacon steady; shoulders 12½; clear sides 15½a16. Lard held higher—kettle 16a16¼. Corn drooping at 70a72. Whisky active at 92.

ST. LOUIS, February 10.—Corn declining; prime to fancy white 79. Whisky dull at 94. Provisions declining. Pork 27 00 Bacon quiet; shoulders 12½; clear sides 16a16¼. Lard dull and nominal.

LOUISVILLE, February 10.—Corn active; sacked 95. Provisions declining. Pork 27 25. Lard 16¾a18. Whisky 93a94. Shoulders 12¾; clear sides 16¼.

MOBILE, Feb. 10.—Demand for cotton fair; closed firm; sales 1,800 bales; middlings 24a24½; receipts 405 bales; exports 1,232 bales.

NEW ORLEANS, Feb. 10.—Cotton: easier, but not quotably lower at 24¼a24½; sales 7,800 bales; receipts 6,769 bales; exports to Liverpool 11,227 bales. Flour firm at 5 40a5 80a6 00. Corn scarce, firmer at 1 07½a1 10. Oats advanced—held at 80. Bran 1 35. Hay 29 00. Pork 29 25a29 50. Bacon easier at 14a17½a18¼. Lard—tierce 16¼a16¾; keg 18. Sugar easier; prime 12¼a12⅝. Molasses a shade better; prime 73a75. Whisky dull at 90a1 00. Coffee unchanged.

Gold 1 20¾. Sterling 30¼. Sight par a¼ discount.

WILMINGTON, February 10.—Spirits turpentine steady at 44½. Rosin at 1 55a160 for strained. Crude turpentine steady at 1 65a2 80. Tar quiet; sales at 2 00. Cotton steady at 23.

CHARLESTON, February 10.—Cotton in moderate demand and steady; sales 400 bales; middlings 24; receipts 1,068 bales; exports, coastwise, 417 bales.

SAVANNAH, February 10.—Cotton receipts 1,507 bales; exports 1,886 bales; sales 900 bales; middlings 23¾. Market active.

AUGUSTA, February 10.—Cotton market opened firm, with fair demand, but closed quiet; sales 558 bales; receipts 600 bales; middlings 23¾a23⅞.

PARIS, February 10.—Bourse firm; Rentes 73f. 45c.

☞ An Arkansas man looked at Lydia Thompson, at New Orleans, as she appeared in "Ixion," for a few minutes, and broke out: "Dang my buttons, but she's a beauty. Lively as a two-year-old. She's lightning, by thunder! She's bully, though! You little rascal, you, if I only had you up in old Rackensack." He unconsciously brought down the house, and Lydia joined in the applause, although she thought she would not emigrate to Arkansas.

☞ A memorial has been laid before the Ways and Means Committee, setting forth that there is now used in Ohio, Indiana and Illinois, between forty and fifty thousand tons of raw flax, valued at six to eight dollars per ton raw, producing to the farmers of from $300,000 to $350,000, which, but for its manufacture, would be wholly wasted; that in the preparation of raw flax in the States named, and in its manufacture, there are fifteen hundred persons employed, and an average of two thousand five hundred persons dependent upon their labors, making four thousand to forty-five hundred persons supported by this manufacture; that the withdrawal of the present import duties upon articles competing with this manufacture, chiefly in the manufacture of jute, commonly called gunny cloth or India bagging, will at once check and cripple this growing interest and entail a loss of $300,000 of raw material hitherto wasted, $500,000 wages to the employes and a loss of over $1,000,000 worth of machinery and buildings erected and suitable for this work.

TWO NEW YORK ITEMS.—A friend was in a bookstore the other day, when a lady came in and inquired for a particular edition of the New Testament. The bookseller thought he had it, but on looking could not find it. Upon informing her of the fact, she asked: "Have you the Police Gazette?" He looked after her as she passed out, and remarked, "That is an odd mingling of things."

An elegantly dressed woman has been several times pointed out to me on the street as an habitual drunkard. She is a wife, and the mother of several children. A few days ago she was conducted by a policeman along one of the most thronged thoroughfares in such a state of intoxication that she needed assistance to get along. [*Cor. Cincinnati Chronicle.*

AN ACCOMMODATING HUSBAND.—About a week ago it was noticed in our columns that a Mr. Brown, a blacksmith of Dobb's Ferry, had surrendered his wife to an assistant workman, known as Bernard Tighe, to whom she was married by the Methodist minister of the village, Brown becoming a boarder of the newly-married couple. It now appears that Tighe, after enjoying matrimonial bliss for one week, decamped for parts unknown, as it is alleged and conceded, because he could not get possession of certain property belonging to Mrs. Brown that was. Mrs. Tighe, alias Mrs. Brown, finding herself without a protector, called upon Mr. Brown to resume his former relations with her as husband, and he consented.—*N. Y. Sun.*

☞ Miss Anthony appeals to her friends throughout the country to "send brief statements of every successful doing of women. The report of one woman's success encourages hundreds to put forth new efforts in some direction." The Raleigh Standard complies by sending on an account of a South Carolina matron who had three children at one birth, and advising Susan to go and do likewise. The ungallant fellow evidently ignores the fact that advice, as well as faith, without works, is naught.

feb11-tf New York, February 1, 1870.

GEORGIA, Campbell County.

CLAIBORNE M. STYLES, Guardian of Henry C. and Benjamin A. Styles, having applied to the Court of Ordinary of said county for a discharge from his guardianship of Henry C. and Benjamin A. Styles' persons and property.

This is therefore to cite all persons concerned to show cause, by filing objections in my office, why the said Claiborne M. Styles should not be dismissed from his guardianship of Henry C. and Benjamin A. Styles, and receive the usual letters of dismission.

Given under my hand and official signature, this February 9th, 1870. R. C. BEAVERS,
feb-11-w Ordinary.

NOTICE.

TOLLED before me as an estray, on the 10th day of February, 1870, by John Ashworth of the 1026th district, G. M., of Fulton county, Ga., one red muley cow, supposed to be eight or nine years old, with a slit in the left ear, with a young calf about ten or eleven days old. Appraised by J. N. Wood and Jesse Wood, freeholders of said district, to be worth fifteen dollars, and the calf 25 cents more or less.

The owner is hereby notified to appear before me, prove property, pay costs and expenses, and take the same away, or it will be sold on the premises of said Ashworth, the taker up, about three and a half miles from Atlanta, on the Peachtree road, on Monday, the 21st day of February, 1870.

DOLLAR STORE,
feb9-d3t Opposite National Hotel.

L. H. BRADFIELD'S COLUMN.

DR. J. BRADFIELD'S
FEMALE REGULATOR,
Woman's Best Friend

THIS valuable Medicine is prepared for WOMEN exclusively, and to be used by WOMEN only. It is adapted especially to those cases where the WOMB is disordered, and will cure any irregularity in the "menses," except in such cases as require a surgical operation. As these last are very rare, the FEMALE REGULATOR is of almost universal application. In a sudden check of the "monthly courses" from COLD, trouble of mind or like cause, it acts like a charm, by RESTORING THE DISCHARGE IN EVERY INSTANCE, thus relieving the fever, headache, pain in the small of the back and "lower stomach," flushes of heat about the face, chilly sensations, burning of the eyelids and general restlessness. Taken in time, all these symptoms pass away immediately, without injury to the constitution. Frequently, however, the proper remedy is not applied in time, the disease becomes chronic, and the foundation laid for numberless evils to the constitution of the woman. The next "turn" comes around and there is no "show," or perhaps the "whites" will appear. There will be some uneasiness about the womb, but very little or none of the natural fluid escaping. The complexion becomes sallow, bowels, swollen, a sort of greenish caste about the face, constant dull aching pains in the head, weight in the lower stomach and back, with or without whites, palpitations of the heart, pallor, exhaustion, indigestion, weariness, langour, aching across the loins, loss of appetite, pain in left breast, tightness across the chest, cough and giddiness. If still allowed to go on, "green sickness" will be fully developed—the headache becomes severe, with loss of memory, diminishing sensibility, SICK STOMACH, dyspepsia no relish for food, loss of flesh, increased fluttering of the heart SWELLING OF THE FEET, legs and body and occasional spitting of blood. The slightest effort causes HURRIED BREATHING, almost SUFFOCATION. The skin is flabby and a "doughy feel." This is a sad picture, but it is the condition of thousands of women between the ages of 15 and 45, who are brought to the verge of the grave by ignorance or neglect to take the proper remedy. To all who are afflicted with any of the symptoms above mentioned, in connection with an irregularity of the "monthly sickness," we earnestly say TAKE DR. J. BRADFIELD'S FEMALE REGULATOR. A few ounces taken, you will at once experience its benefits, and with a little patience you will be fully restored to health.

This remedy has been extensively used for upwards of twenty years by many of the most experienced and successful Physicians of Georgia.

We repeat, that Dr. J. BRADFIELD'S FEMALE REGULATOR is prepared for WOMEN, and to be used by Women only.

A trial is all we ask.

Prepared and sold in any quantity, by
L. H. BRADFIELD,
WHOLESALE DRUGGIST,
Atlanta, Georgia.

Price, $1.50 per Bottle.

☞ Sold by Druggists generally.

ATLANTA, Ga., December 29th, 1868.

DR. J. BRADFIELD—Dear Sir: I take pleasure in stating that some time previous to the late war, I used, with the utmost success, on a servant girl, your FEMALE REGULATOR, prepared then at Bradfield's Drug Store, West Point, Ga. She had been suffering severely from suppressed menstruation, and this Medicine soon restored her to health. She is, to-day, living in Atlanta, sound and well.

I will state, further, that I know of its being used, with equal success, on a servant girl of my brother-in-law, Professor Rutherford, of Athens, Ga. This woman had, I think, been diseased for six years. She was a house servant, and seemed cured, up to the time of "freedom." I do not hesitate to indorse your preparation for the purposes for which you recommend it.

Yours truly, JNO. C. WHITNER.

STATE OF GEORGIA, TROUP COUNTY.

This is to certify that I have examined the recipe of Dr. Joseph Bradfield, of this county, and, as a medical man, pronounce it to be a combination of Medicines of great merit in the treatment of all the diseases of females for which he recommends it. WM. P. BEASLEY, M. D.

This December 21st, 1868.

MOUNTVILLE, 1868.

DR. J. BRADFIELD—Dear Sir: I have much pleasure in saying I have witnessed the most decided and happy effects of your Female Regulator in this neighborhood. WM. H. FINCHEN.

MOUNTVILLE, 1868.

Dr. J. BRADFIELD—Dear Sir: I have repeatedly used, in my family, your Female Regulator, and have, in every case, met with complete success.

G. L. DAVIS.

☞ I also prepare, and have for sale, a YEAST POWDER, equal to the best, and for much less price.

☞ I also prepare a LIQUID BLUING, now in use by many of the best house keepers in the city, and pronounced by them to be very superior.

L. H. BRADFIELD,
Druggist, Atlanta, Ga.
Sole Agent for Geo. M. Hay's
Sure Cure for Intemperance.

Will treat secret diseases of all kinds. Special attention given to Female Diseases both acute and chronic, etc., etc.

PROMPT ATTENTION GIVEN TO ALL ORDERS.

Prophitt's Liver Medicine,

Has the advantage of almost any other preparation of Medicine that acts upon the Liver. It is in the form of a Fluid Extract—ready for use at all times, day or night, and can be carried to any locality in America, winter or summer, as it will neither sour or freeze at any temperature that a human being can occupy with safety.

It is not too strong for children, or too weak for the most robust. There is no trouble about taking it, only to unstop

THE BOTTLE

and drink it whenever you may want it. It has gained a very high reputation in every locality it has had a fair and honorable chance to prove itself, at any point

IN AMERICA.

and it has been used in every State south of Maine, and is alike applicable to disorders of the

Liver and Digestive Powers

at all places yet tried. Traveling parties, North and South, carry it, and the happy effects of it in all climates. The above named Medicines prepared only by

O. S. PROPHITT,

Corner Walton and Broad Streets,

THE GREAT DISCOVERY OF THE AGE!!!

SALVIA'S HAIR COLORING!!

PERFECTLY COLORLESS!!

NO STAIN TO THE SKIN!

CAN BE APPLIED AS WATER!!!

IS PUT UP IN ONE BOTTLE!!!

AN insuperable objection to most of the Hair Dyes of the day is the fact that they cause, in many instances, serious constitutional effects; as

NO LEAD OR SATURNINE POISON are USED IN

"DR. SALVIA'S HAIR COLORING,"

there is not the slightest danger of Palsy, Neuralgia of the Scalp or Face, Cholic, Constipation, etc

This EMINENT CHEMIST has, for many years, been endeavoring to create a chemical preparation that would combine the valuable properties of a harmless, reliable coloring, and at the same time render its use impossible to be detected by the closest observation.

In using the ordinary Hair Dyes, the hair presents a dead appearance and is detected at a glance. By the use of this scientific compound, the coloring of the hair is so skillfully modified as to defy detection, thus GIVING TO THE WORLD an article that has been LONG SOUGHT FOR, and one guaranteed to give satisfaction.

It is perfectly Colorless. Does not Stain the Skin or Scalp, and is put up in one bottle.

SINGULAR COINCIDENCE.—The city council of Atlanta has been sued by George Washington, and the suit will be tried on the 22d inst.

NEW CARRIERS.—We have recently put on new carriers on several of the routes in the city, and the carriers have not fully learned their routes. Subscribers failing to receive their papers, will please inform us of the fact.

DEATH OF AN ESTIMABLE LADY.—On Sunday last, Mrs. Mary J. Hunt, wife of Rev. W. H. Hunt, departed this life, in the fifty-third year of her age. She led a christian life, and died the death of the righteous.

JUSTICE SPENCER.—We were pleased to see Justice Spencer at his post yesterday. The negro man arrested on the charge of attempting to steal some Hams from A. K. Seago's cellar, was discharged.

THE BERGER FAMILY.—Remember that this inimitable family open to night at DeGive's Opera House. Sol Smith Russell will appear in some of his unapproachable delineations. Fill the house to overflowing.

OUR JOB OFFICE.—We return our warm acknowledgments to our friends for their patronage to our Job Office, and hope, by good work at moderate figures (without underbidding) to continue to receive as heavy a press of work as we are now receiving.

ACCIDENT.—George Johnson, of the Atlanta Museum, was knocked down by a falling scantling of a circus bill-board, on Forsyth street, on Wednesday evening, and severely injured. Last evening he was recovering from the effects of the fall.

FROM PARIS.—Mr. Pellorce has just arrived from Paris, with a choice collection of flowers, plants, bulbous roots, flower seed, etc, and can be found at No. 4, Franklin Printing House Building, next door to THE CONSTITUTION Office. Lovers of the beautiful will take notice.

THE ATLANTIC AND GULF LINE.—We invite special attention to the advertisement of this line in another column. Mr C. D. Owens, the General Agent at New York, is well known in this section for his energy and promptness. That he is connected with an institution, is a sure guarantee of its despatch and reliability. Mr. R. A Anderson is the Agent in this city.

SUPREME COURT—*Evening Session.*—Feb. 01, 1870.—Argument was resumed and concluded in No. 14, Flint Circuit.

No. 15 is Ruff, Sims & Co, et. al., vs. Wm. M. Johnson, Trustee; homestead, from Newton. A. D Hammond, J. S. Pinckard for plaintiff in error. R. P Tripp W. D. Stone for defendant.

Pending the argument for defendants in error, Court adjourned till 10, A. M., to-morrow.

TOO MUCH FOR THE JUDGE.—One of our popular citizens, who is a good judge of ordinary matters, dropped in the other night at the Dollar Palace Store. One of the young ladies showed him some chess men and other fancy tricks. Looking a little disgusted, he replied, "Oh, show me something useful," emphasizing the last word. The young lady handed him a box of soap, which he paid for and sloped.

TO OUR SUBSCRIBERS ALONG THE GEORGIA ROAD.—By a recent change in the mail schedule, the way mail from Atlanta for the Georgia Road, leaves at 5:45 P. M., instead of 5 A. M. This has produced temporary confusion. Believing that it would be preferred by our readers, we made an arrangement with the Express Company to carry the mail at 5 o'clock A. M., as usual. Our readers will notify us if they fail to get their papers, and see the railroad and express agents at their office, about receiving the package in the morning for them.

"THE DOLLAR SAVINGS BANK OF ATLANTA."—In response to the inquiry of our correspondent, "Working Man," calling for a "Mechanics' Savings Bank," we are authorized to state that certain gentlemen of character and capital have perfected arrangements to organize a "Dollar Savings Bank," where mechanics, laborers, and others, can make deposits and receive accommodations. A charter will be applied for at once, and business will not be long deferred. This enterprise has been had in view by these gentlemen for several months, but they have been compelled to postpone active operations until a charter could be obtained from the Legislature.

ATLANTA LODGE, NO. 1.—The following is the list of officers duly installed in Atlanta Lodge, No. 1, I. O. G. T., by Lodge Deputy John Middleton:

P. H. Wade, G. C. T.; Rev. C. J, Oliver, W. P. T.; Miss Carrie McDuffie, W. V. T.; J. C. Kees, W. Secretary; O. T. Dozier, W. Assistant Secretary; J. R. Cates, W. F. Secretary; Fred Hope, W. Treasurer; Rev. W. C. Dunlap, W. Chaplain; W. W. Wells, W. Marshal; Miss Werrie Ellis, W. Inside Guardian; A. F. Lee, W. Outside Guardian; Miss G. L. Almond, W. Right H. S.; Miss Jennie Lewellen, W. Left H. S.

REMOVAL OF OGLETHORPE.—I propose a series of brief articles on the removal of Oglethorpe College. The citizens seem to be awake to its importance, and all thus far approached have either subscribed or declare their determination to do so. These latter should remember that we have precious little time for action in this matter and should reflect upon the assistance afforded the committee, by promptly responding, be the amount what it may. If all would meet the efforts of the committee, as did several gentlemen yesterday, the work would soon be accomplished. Said one of them, after subscribing a very large amount, "I am convinced of the propriety and utility of this effort, so much so, that if necessary, I will double that amount." Said another, "I insist upon subscribing for each one of my boys, as it is for their especial benefit, as well as my own pecuniary interest." He saw the matter in its true light. Every parent intending to give his son a collegiate education, should think of the thousands saved by educating him at home under his own immediate influence and superintendence. C.

THE MEETING OF THE EXECUTIVE COMMITTEE.—We briefly noticed yesterday evening the assembling of the Executive Committee of the State Agricultural Society. The following members of the Committee were present: Col. B. C. Yancey, Judge W. Schley, C. W. Howard, Col. D. C. Barrow, J. A. L. Lee, B. G. Lockett, Col. H. D. Capers, Dr. Chappell, A. H. Colquitt, Col. J. A. Billups, J. Rhodes Brown, Hon. G. S. Obear, Enoch Steadman, S. F. Livingston, B. H. True, T. J. Smith, J. B. Jones, Jr., Dr. J. S. Hamilton, R. F. Rawson, Dr J. H. Fitten,

The subject of the indebtedness of the late fair was discussed and ventilated. Macon owes a debt of gratitude to Mayor Obear for his vindication of her conduct. Macon, true to her past history, fulfilled all she promised to do.

The Treasurer, William Hazlehurst, made a verbal statement, showing the gross receipts of the Macon Fair to be some $14,498.00; of this amount $12,429 75 had been paid out, leaving a balance on hand of $2,068.25. There were unsettled claims against the Society, amounting to $1,475 02, which might be reduced to $800 or $1,000. The premiums had all been paid for, and there were $2,000 on hand not awarded. Besides this, there were some $2,000 worth of furniture belonging to the Society. According to this showing, there will be an overplus of near $5,000.

Mr. C. W. Howard was appointed a committee to report on essays on reclaiming waste land.

The committee evinced an earnest desire to ascertain the responsibility of the confusion in which the business of the society was in. The statements of various members of the committee relative to the administration of the Secretary, sustain our position from first to last. Although our motives were impugned, our statements misstated, and we waged the battle single-handed and against great odds, by their own statements is our position sustained and verified. Confident in the strength of our position, we refrain from saying more until we see the action of the committee.

President Yancey made a good speech, though traveling out of the way to hit the press a lick.

After referring the claims against the society to the Auditing Committee, the Committee had a conference with the Mayor and a committee from the City Council. It is understood that our City Council agrees to give the $5,000 in premiums, and complete the buildings at the Fair Grounds to suit the views of the Committee.

Yesterday evening, the Executive Committee and the Mayor and members of Council went out to look at the Fair Ground, near Bellwood. The arrangements will be perfected to-day, to the satisfaction of both parties.

It is thought that by building a railroad track from the city to the Fair Ground, and running free trains there every fifteen minutes, that the objection to the proposed location will be obviated.

As the President is so tenacious about comments, until facts are obtained, we await further developments. We want the Fair to be a success. It can only become such by promptness and efficiency. We shall not spare either the Executive Committee or the City Council, if they fail to come up to the work as they ought.

Local and Business Notices.

BUSINESS NOTICE.—Col. T. M. ACTON is the General Traveling Agent, and T. K. OGLESBY, and J. T. HALL, are the special Traveling Agents of THE ATLANTA CONSTITUTION. We commend them to the attention of our friends wherever they may go in behalf of our interest.

5,000 bushels Yellow and White Corn; also, seed and feed Oats. Now on sale by
feb11-d6t A. K. SEAGO.

A STITCH IN TIME SAVES NINE.—If you have a cough, do not neglect it; thousands go to an untimely grave by neglecting what they call "a slight cold." These slight colds are very insidious. They soon become deep-seated, and defy all remedies. DR. TUTT'S EXPECTORANT will cure it. It can be had of any druggist.

A NEW DISCOVERY!!

PHALON'S

"VITALIA;"

OR,

Salvation for the Hair.

CLEAR AS WATER!
WITHOUT SEDIMENT!!
OPEN TO THE LIGHT!!!

For Restoring to Gray Hair its Original Color.

PHALON'S "VITALIA" differs utterly from all the hair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and cloudless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time or sickness may have bleached out of it.

☞ Phalon's Vitalia ☜ is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.—These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.

THE VITALIA is a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications according to the depth of shade required. Sold by all druggists.

☞ As a hack, in Indiana, a few weeks since, was passing a farm-house, the passengers were startled by screams within, and the driver reigned up his horses, exclaiming:

"I believe the old fellow is killing his wife this time."

So he jumped off his seat, ran in and pushed open the door, shouting:

"What are you about here."

The wife brushed the tangled hair out of her eyes, and looking at him savagely, said:

"We are having a little hell of our own, and have devils enough to run it. We don't need your help."

THE PRESIDENT AND THE GOLD CONSPIRACY.—Orr Mr. Stiles, a Pennsylvania Democrat, who takes the report of Fisk's testimony as furnished by some of the papers for Gospel truth, declared in the House yesterday that the integrity of the President was involved, and that he ought not to be the ruler of the people if the charges are true. The style of Mr. Stiles [illegible] the chairman ruled him out, as among the styles gone out of fashion.

☞ A young woman in New Harmony, Ind., boasts that she has broken twenty-seven engagements of marriage in five years. She has the rings that once attested to these engagements hung up in her "headquarters," and to those she points as does the red man to his string of scalps.

BERGER & BUTTS'

EXCELSIOR SUPER-PHOSPHATE OF

LIME.

WE now offer this Standard Fertilizer to the Planters of Georgia, and as a guarantee of its great value, we need only say, that we hold certificates of Dr. R. J. Massey, Inspector of Fulton County, and Professor A. Means, at Savannah, with analysis of G. H. Williams, Analytical Chemist, Savannah, Ga. Apart from these, we hold many certificates from planters of Georgia, endorsing this article as giving the very best results.

Cash Price $70 Per Ton of 2,000 Pounds. Time Price $75 Per Ton of 2,000 Pounds.
GLENN & WRIGHT.

Baugh's Dissolved Bone.

WE are in large supply of this popular article, and offer it, as in the past, on most favorable terms. To our people, this is no New Fertilizer, and therefore, needs no eulogy or Certificates.

Price $70 Per Ton, Cash. GLENN & WRIGHT.

DR. HOOTEN'S

INFIRMARY FOR THE BLIND!

Dr. W. A Hooten's Infirmary for the Blind, Atlanta, Ga., continues to grow in favor with the public, and to extend the sphere of its usefulness. The many remarkable cures performed during the past year alone, places the stability of this Institution outside of all question. The united testimony of the large numbers, once blind, that have been permanently restored to sight by Dr. H., is irresistible. These persons are to be found in almost every section of Georgia, and in many other States. To this united testimony, is added that of thousands of the most reliable people, who know well the history of the cases restored. These facts are incontrovertable, and are rapidly spreading their influence over the whole land. Any amount of unquestionable evidence can be readily furnished persons desiring information. Patients are regularly coming in from all directions, and the prospect promises a large increase of operations for the present year.

CERTIFICATES:

The following general statement was put to publication by about one-fourth of the whole number of patients under treatment at the time. It was published in Nov., 1869, with no previous intimation to Dr. H. The remainder of the patients were absent at the signing, and had no opportunity of affixing their signatures.

IN voluntarily presenting this communication to the Public, we are impelled by a desire to benefit those who, like ourselves, are afflicted with diseases of the eye, and by a sense of justice to Dr. Hooten, who has permanently established an Infirmary for the Blind in the city of Atlanta, Ga. Dr. Hooten having been blind three years himself, and having been restored to sight by the same system of treatment which he now practices, is well qualified to sympathize with and restore those similarly afflicted.

Dr. H. is a high-toned gentleman, and is candid to a fault. He gives his opinions promptly, and always in strict accordance with the dictates of his judgment. For success and established position, he relies on his own knowledge and skill in the practice, and not upon combatting unjust charges made against him. Governed by this line of policy, he has steadily avoided public vindication against any misrepresentations.

Dr. H. does not profess to restore the blind and cure diseased eyes by supernatural agencies—such as the laying on of hands, etc., (as is attributed to him by many)—but to treat the eye on strictly rational and scientific principles, and to use the remedies relied on by the best authors and practitioners of the profession, together with medical combinations of his own, which twelve years' successful trial has demonstrated to be incomparably superior to any system of treatment known to the medical world.

Dr. Hooten is no adventurer. That he is no humbug, and could not possibly be, however much he might desire it, is at once manifest to all reflecting, impartial minds, for the following reasons: 1. He is permanently located in Atlanta, where the true character of his practice must of necessity be known to all the people. A humbug never locates permanently; he is compelled to keep on the move to avoid detection. 2. He is a Georgian by birth, and is connected with one of the largest, most respectable and influential families in the State. 3. He was educated in part at the State University of Georgia, and graduated in medicine in the Old School at Louisville, Ky., and afterwards attended an extra course of lectures. 4. He has been a regular practicing physician for nineteen years, nearly all of which time has been spent in one of the most intelligent and refined sections of this State. He was eminently successful as a general practitioner, and was held in the highest esteem by his patrons. 5. Dr. H. has now been practicing on the eye as a specialty, in the city of Atlanta, Ga., for nearly twelve months, advertising regularly and extensively in the public journals, and has distributed broadcast over the Southern States his circulars, giving as references the names of a large number of the most respectable and prominent citizens of Georgia, and of other States, together with certificates of persons cured by him, with name, post-office and State strictly specified.

In making this record, we make no adventure—we know whereof we affirm—for many of us, before coming to Dr. H., had exhausted, in vain, the best systems of treatment on the eye known to the medical profession. Many of us came to him blind, and many partially blind: we now see. Many before us came to him blind and partially blind: they have been permanently restored, and have returned home.

The foregoing statements make an array of proof which, we think, cannot fail to disabuse any mind of prejudice that is not wholly beyond the reach of testimony:

For five years I have suffered greatly from Granular Conjunctivitis. For two years I have been blind, and unable to give personal attention to my affairs. The three years previous I was semi-blind. During the five years of my affliction, I tried many physicians, without benefit. The disease gradually settled down into a more hopeless state. In this distressing condition, I placed myself under the treatment of Dr. Hooten three weeks ago. In one week, I could see to make my way alone over the city. In two weeks, I wrote a long letter home to my family with my own hand. To-day, the end of three weeks, I have indulged in reading fine print. I have every reason to believe that I will soon be restored. I have conversed with many persons whom Dr. H. has entirely cured, and I feel safe in advising all who are afflicted with diseased eyes, to make no delay in giving him a trial. Let every friend of suffering humanity, take every opportunity of placing this statement in the hands of the afflicted. C. B. McCUTCHEN.

Atlanta, August 18, 1869.

P. S. After a test of months, the following is added: Dr. H., I am pursuing my regular vocation. My eyes stand every test. The cure is final, and I authorize you to so subscribe my name. C. B. M.

Franklin, Ga., Jan. 3, 1870.

ATLANTA, JAN. 13, 1870.

DR. W. A. HOOTEN: It affords me much pleasure to testify to your great skill in treating diseases of the eye, and to express to you my gratitude for the services rendered my little daughter, [illegible]. In July [illegible], she had measles, and while she was recovering from the attack, it was discovered that her eyes were seriously affected. The disease finally [illegible] the left eye, which became very weak, [illegible]. I had her under the treatment of different physicians, and tried different [illegible], till her sight [illegible]. [illegible] Very respectfully, Your obedient servant, JOSEPH E. BROWN.

Important to Farmers and Planters.

MERRYMAN'S RAW-BONE

SUPER--PHOSPHATE FOR COTTON!

THIS Phosphate has proved itself to be the Cheapest, and fully equal to any in the Market. Unsurpassed by the highest-priced Guanos. Its adaptation to

COTTON, WHEAT, CORN, OATS, TOBACCO, GARDEN TRUCK, GRASSES, ETC.,

Has been thoroughly and satisfactorily tested. Finely ground and suitable for Drilling. Put up in bags of 167 lbs. each.

O. P. MERRYMAN & CO., MANUFACTURERS, BALTIMORE, MD.

Send to Agents for Circulars containing other testimonials from different sections of the State. For sale by ABBOTT & BRO., Atlanta, Ga.

NEAR JONESBORO, GA., Nov. 3, 1869.

MESSRS. ABBOTT & BRO., Atlanta, Ga.—Sirs: In reply to your enquiry, as to the merits of Merryman's Raw Bone Phosphate, I take pleasure in stating that in my opinion there is no Fertilizer in use that is superior to it. I used it on my cotton, and am well pleased with it, and will use it more extensively another year. I do not hesitate to recommend it to all who want a good reliable Fertilizer.

Yours, truly, ELLISON RUSH.

EAST POINT, GA., Oct. 21, 1869.

MESSRS. ABBOTT & BRO., Atlanta, Ga.—Gentlemen—The two tons of Merryman's Raw Bone Phosphate, purchased of you last spring, I applied on my cotton and potatoes, with the most satisfactory results. Until this year, I have always used the Chesapeake Guano and Baugh's Raw Bone Phosphate, and I have no hesitancy in saying, after thorough tests, that Merryman's Raw Bone Phosphate is fully equal, if not superior to either of the others.

Yours, truly, JOSEPH CALDWELL.

EIGHTEEN HUNDRED AND SEVENTY.

BY H. N. POWERS.

A Flower unknown; a book unread;
A tree with fruit unharvested;
A path untrod; a House whose rooms
Lack yet the heart's divine perfumes;
A Landscape whose border lies
In silent shade 'neath silent skies;
A wondrous Fountain yet unsealed;
A Casket with its gifts concealed;
This is the Year that for you waits,
Beyond To-morrow's mystic gates.

O, may this Flower unfold to you
Visions of beauty sweet and new;
This Book on golden pages trace,
Your sacred joys and deeds of grace.
May all the fruits of this strange Tree
Luscious and rosy-tinted be;
This Path through fields of knowledge go;
This House with love's content o'erflow;
This Landscape glitter with the dew
Of blessed hopes and friendships true;
This fountain's living crystal cheer,
As fall the springs that once were dear;
This Casket with such gems be stored
As shine in lives that love the Lord.

December 31, 1869.

☞ Hon. John P. Hale, Ex-Minister to Spain, is to have a public reception in Dover, N. H., on his return, and his friends say they will elect him to the Legislature.

☞ It is suggested by the Boston Post that now is the time for Corbin to take the small-pox.

Luck May Lie in a Pin.

BY HANS CHRISTIAN ANDERSEN.

Now, I am going to tell a story about Luck. All of us are acquainted with Luck; there are those who see her all the time, some only at certain times of the year, others only one single day—yes, there are people who only see Luck once in their life time; but all of us do see her.

I suppose I need not tell you that when our Lord sends a little child here, He lays it in his mother's lap; this may happen in a rich man's castle, or in a workingman's nicely ordered room; but then it may happen instead in an open market place, where the cold wind blows. But what every one of you do not know, and yet is really true, is, that our Lord, when He places a child here, also sends along with it good Luck, which, however, is never placed near by, but is hidden in some spot on our globe, where we look for it least; and it is always found at last, and that is a comfort.

Luck once was placed in an apple; that was for a man whose name was Newton. The apple fell, and thus he found his Luck. If you do not know the story, ask some one to tell it to you. We have another story to tell—a story about a pear.

There onced lived a poor man, who was born poor, and had grown up poor, and was poor when he married. He was a turner by trade, and used to turn umbrella rings, but he only earned enough money by this to live from hand to mouth.

"I shall never find my luck," said he.

Now this is a true story, which really happened. I could tell the name of the country and the place where the man lived, but that is of no consequence. The red and sour mountain ash berries blossomed and ripened around his house and in his garden, as if they were the choicest fruit; and in the garden stood also a pear tree, but it never had borne a pear, yet there Luck was placed in an invisible pear.

One night the wind blew terribly. In Ayize, men said the great Dillig boulder had been lifted from the side of the road, and thrown down like a lump of clay, and so it was not at all wonderful that a big branch should have been broken from the pear tree. The branch was taken into the workshop, and the man turned out of it, just for fun, a big pear, and another big pear, then a smaller pear, and then several very small pears.

"The tree shall bear pears once at least," he said, and gave them to the children to play with.

There are some things that are necessaries in life, and among these, most certainly in wet countries, are umbrellas. Now the whole family had only one for general use. When the wind blew very hard, the umbrella would turn over, and sometimes it would break; but the man quickly mended it again—that was his trade. With the button and string that kept the umbrella together, it went worse; would always break too soon, just as one was folding the umbrella up.

One day, when the button had broken again, and the man hunted in vain for it on the floor, he happened to get hold of one of the smallest pears, which he had turned, and had given to the children to play with.

"I can not find the button," said the man, "but this little thing will answer." He pulled a small cord through it, and the little pear filled the place of the broken button beautifully; it was exactly right, and formed the best of fasteners. The next time he had to send handles and rings to the capital, he added to the number a few of the small wooden pears which he had turned. They were fastened to a few new umbrellas, which were sent with a thousand others to America. They have a quick understanding there of what is of use. The little pear was found to hold best, and the umbrella merchant gave orders that all the umbrellas to be sent to him after that should be fastened with the little wooden pear. Large orders were to be supplied, thousands of pears to be made of wooden pears on all umbrellas; and our man was kept busy at work. He turned and turned; the whole pear tree was used for little wooden pears, which brought shillings that grew into dollars.

"In that pear tree my Luck was placed," said the man; and soon after he had a great workshop, with plenty of women and boys to help him. Now he was all the time in good humor, and often used to say, "Luck may lie in a pin."

So also says he who tells the story, and you should know that it is true; and there is a proverb in Denmark, that if you put a white pin in your mouth you will be invisible; but it must be the right sort of pin—one given by our Lord. I have had one of them; and whenever I come to America, the land of the New World, which is so far off yet so near me, I shall always carry that pin with me. I can send my greeting over in a few minutes; the ocean rolls over to its shores; there the wind blows; any day I can be there when my stories are read, and perhaps see the glittering gold receive the ringing gold—the gold that is best of all, which shines in the eyes of children, and comes ringing from their lips, and the lips of their parents. I am in the very room with my friends—and yet I am invisible. I have the white pin in my mouth.

Yes, Luck may lie in a pin.—*Riverside Magazine.*

Carefully packed and shipped to any part of the country. Send for circular.

[illegible] STEWART & CO., [illegible] Sixth Ave., New York.

Pacific Guano Company's Soluble

PACIFIC GUANO.

CAPITAL $1,000,000—PRICE $72.50cts PER TON.

THIS Guano differs from Peruvian Guano simply in the relative proportions of the same elements of fertility. Its use during the past four years for the culture of Cotton and Corn, has given it a character for standard excellence unsurpassed by genuine Peruvian Guano, and when seasons of drought intervene, it produces a larger increase of crops.

The price at which the Guano is placed, is so much below that of Peruvian Guano, as to constitute it an object of material importance to Southern Agriculture.

The large capital and resources of the Company enable it to furnish a Guano of the highest value at the lowest possible cost to consumers, and the highest interest of the Company is recognized in this policy. The Company look to large sales, small profits and a permanent trade for compensation in capital invested. Dr. St. Julien Ravenel, of South Carolina, is Scientific Director to the Company, which affords a sure guarantee of the continued excellence of the Guano. None genuine unless branded with the name of John S. Reese & Co., General Agents of the Pacific Guano Company. For terms and mode of application, apply to

ADAIR & BRO. Agents,

Pacific Guano Company's

COMPOUND

Acid Phosphate of Lime,

FOR COMPOSITING WITH COTTON SEED.

Price $32 50cts Per Ton.

THIS article is Manufactured at the Company's Works, under the direction and superintendence of Dr. Ravenel. It contains the same elements of fertility as Soluble Pacific Guano, except that it is not furnished with Ammonia. It is prepared expressly for compositing with cotton seed, which furnishes the element of Ammonia; the object being to render this side product of the plantation available to the highest degree as an element of fertility. For further and particular information, apply to the undersigned.

ADAIR & BRO., Agents,

HOME EVIDENCE.

WE call especial attention of Planters to the Letters of Judge John D. Pope and Senator W. C. Smith, and others that we will publish hereafter in regard to the use of the Soluble Pacific Guano. We believe there is none better for Cotton and Corn than the S. P. Guano.

Respectfully,

ADAIR & BRO., Agents.

SENATOR W. C. SMITH'S LETTER.

Grantville, Ga., November 12, 1869.

MESSRS. ADAIR & BRO., ATLANTA, GA.

GENTS—In reply to your inquiries in regard to the Soluble Pacific Guano bought of you last Spring, I have taken some pains to get facts from my neighbors, for whom I purchased, and condensed the following statement, the reliability of which is unquestionable: W. J. Sewell used Soluble Pacific Guano, about 200 pounds to the acre, on red and grey land. Seasons were remarkably dry, never rained enough to wet an inch deep from 17th day of June to November 16th, made about 1,200 pounds per acre and tested as follows: Left one row with no Guano for a given length, and one row with Guano same length, counted stalks and bolls of each row, and found there was a little more than double as many bolls on the Guanoed row, and the bolls nearly twice as large.

W. S. Smith used about same quantity of same kind of Land, and made over three times as much Cotton per acre on the Guanoed Land as he did on the same kind of Land without Guano.

T. J. Lambert used it on old Land, very much worn, had been cleared 38 years, and made about 600 pounds Cotton per acre, and thinks his crop was cut off fully one-half by drought. On one row through the middle of the field unguanoed, he did not make one-fourth as much as on the Guanoed row.

T. C. Moreland, a large Planter, has been experimenting with different Fertilizers, and says his experience with Soluble Pacific Guano is more satisfactory than with any other. Thinks it equal to any. I have been using different kinds of Fertilizers with pretty much the same result as stated above by others. Yours Respectfully, W. C. SMITH.

JUDGE JOHN D. POPE'S LETTER.

Atlanta, Ga., January 24, 1870.

MESSRS. ADAIR & BRO.

GENTS—I used last year on my Cotton Land, in DeKalb County, 400 pounds per acre, of Soluble Pacific Guano bought of you. The Land was thin and the seasons extremely dry, and a large part of the crop was lost on account of the drought. Notwithstanding these disadvantages, I am satisfied that I got my money back, and at least 50 per cent profit. If the drought had not come on at a critical time with the crop, I believe the profit on what I invested in Guano, would have been as much 100 per cent. Respectfully, JOHN D. POPE.

THE WORLD'S WONDER.

DR. ABBETT'S ANTI-DYSPEPTIC

—OR—

LIVER MEDICINE

A SAFE and certain cure for all kinds of Liver Complaints, and all diseases and indispositions that originate from a diseased state or inactivity of the Liver, such as

Chronic and Acute Inflammations of the Liver,
Dyspepsia, Sick Headache,
Sourness of the Stomach,
Loss of Appetite,
Lowliness of Spirits, Colic,
Costiveness, Fever, Ague,
Bilious Fever, Dropsy and Jaundice.

These Medicines are purely Vegetable, and perfectly harmless; but their efficacy is too permanently established in all the Southern and Western States to require any further recommendations. The wise will not fail to give them a fair trial—this is all that is asked.

RANDOLPH COUNTY, ALA.

DR. L. B. ABBETT—I do hereby certify that your Liver Medicine, has cured my wife of the Sick Headache, and I would recommend it to all who are suffering with it. She was afflicted all her life—at least thirty-five years. Has no symptoms now. JAMES B. JONES.

RANDOLPH CO., ALA., JAN. 2, 1865.

DR. L. B. ABBETT—I take pleasure in saying to you, that my wife has been afflicted for twelve years, and after taking a few portions of your Liver Medicine, was restored to her wonted health, and remains so, with very little symptom of the Dyspepsia or Liver Complaint. JOEL FOWLER.

THE WILLINGHAM FERTILIZER

FOR

COTTON, CORN,

WHEAT.

THIS STANDARD MANURE, named after a well known practical Planter of Georgia and South Carolina, combines in a concentrated form all the fertilizing elements necessary for the production of COTTON, CORN and WHEAT, and by its use is certain to increase not only the yield, but to improve the quality of the products. It is made with a special view to the wants of the soils of the South, and can be relied upon as to excellence of material, containing highly necessary substances, the great cost of which have heretofore precluded their being in common use. It can be depended on as uniform, always reliable, and productive of good crops.

ALBANY, GA., September, 1869.

Having a full knowledge of the composition and process of manufacture of the "Willingham Cotton, Corn, Wheat and Rice Fertilizer," I have no hesitation in pronouncing it to be a most reliable fertilizer, one of the best in use, and most particularly adapted to the soil of Georgia and South Carolina. THOMAS H. WILLINGHAM.

Price per ton, 2000 lbs. Price per ton, 2000 lbs. 1st, on approved city acceptance.

A New and Superior Variety of Cotton,

WITH FROM 200 TO 300 OPEN BOLLS ON THE STALK.

THE HOLMES EARLY PROLIFIC.

THE EARLIEST MATURING AND LARGEST PRODUCING COTTON KNOWN

The Subscriber offers the Seed of the above named Variety of Cotton Recommending it:

1ST, ON Account of its early maturity; and 2d. Its immense yield. This is the first introduction of it into Georgia. It has stood a thorough and severe test on the River Lands of the Mississippi. Four years ago, a few seed (not more than twelve or fifteen) were brought by a traveler from California; and since that time, I have been growing and increasing my crops of it, and every season have met with success. It has improved in early maturity and productiveness—in both has proven itself a wonderful variety, and not to myself alone, but to every one who has grown it or seen it grow:

For Want of Space I Can Only Offer a Few Testimonials:

Selma, Ala. July 22, 1869.

DR. H. J. HOLMES—Dear Sir: Your favor of the 9th inst. duly received, and I have delayed writing you, that your early prolific Cotton might further develop what it was likely to do. It has surpassed my expectations, and is the wonder of the farming community, who are watching its daily growth with great anxiety, and is visited by them as they come to town both far and near. The stand is not good, because we planted it sparingly, you recollect; then the cut worm in the spring injured it. It has not yet grown very tall—say four to five feet—but has limbed out from bottom to top—full twice as much cotton, the planters say, as is general on their farms, and full as well matured, although we planted it three weeks later. There are from 100 to 300 bolls now on the stalks. Very truly,

J. F. DENNIS, Cotton Factor.

Selma, Ala., September 4, 1869.

DR. H. J. HOLMES, Atlanta, Ga.—Dear Sir: Your favor of the 3d inst., just to hand and contents noted. I am very much pleased with the early prolific Cotton. It has come fully up to the description you gave it. In some instances, there are three bolls to the joint, and from eight to twelve bolls to the limb. But I consider its greatest merit to be its early maturity. I am satisfied my little patch was three weeks earlier than an adjoining lot, planted on the same day mine was, (28th April). I am am also pleased to say that the staple is unusually long and fine.

Yours, very truly,

W. S. KNOX, Cotton Factor.

Union Springs, Ala., Sept. 6, 1869.

DR. H. J. HOLMES—Dear Sir: The Early Prolific Cotton is fully three or four weeks earlier in its maturity than any other Cotton planted in this neighborhood; at least, it has proved so with the experiment I made with it this year. I planted the Dixon on the 10th of April, and finished on the 17th with Peeler; yours on the 1st of May. Your Early Cotton had the first blooms. I shall give it a fair trial the next year, and will give you the result if desired.

Yours, most truly,

E. TROUP RANDALL.

PLANTERS ARE CAUTIONED

Against purchasing from other parties than my authorized Agents, as I have not more than one thousand or twelve hundred bushels of these Seed for Sale.

Specimen stalks of this Cotton, containing 200 to 300 open and grown bolls, are exhibited in the Agricultural Warehouse of SAM. A. ECHOLS, where persons visiting Atlanta are invited to call and examine this Cotton for themselves.

Arrangements are made to supply parties wishing to plant only a small quantity of these Seed, by having them put up in small bags, neatly done up, and sent by Express or as otherwise directed—price $2.

Orders for these small parcels, sufficient to plant one-quarter of an acre, must be made to

H. J. HOLMES, Atlanta, Ga.
